RELIABLE COFFEE QUALITY,
BLENDING ROBUSTNESS AND EASY SERVICE.

WMF 1300 S

DESIGNED TO PERFORM

wmf.com

INTUITIVE MENU SYSTEM

The 7" colour touch display is easy to navigate using intuitive gestures like swiping and scrolling. The menus can be adjusted to meet your requirements, for example for self-service or served venues, while the Pre-Select toolbar offers handy options for staff.

TECHNICAL SPECIFICATIONS

Recommended for an average daily requirement of*	120 cups
Nominal power rating / mains power connection	2.0 - 2.4 kW / 220 - 240 V
Total hot water output / hour	110 cups
Coffee bean hoppers	Left and right 650 g, middle 550 g
Powder hopper	Approx. 1200 g
External dimensions (width / height** / depth)	325 / 670 / 574 mm
Water supply	Water tank (approx. 4 l) or fixed water supply
Empty weight (depending on the model)	Approx. 35 kg
Continuous sound pressure level (LpA)***	< 70 dB(A)

* Output is determined using a machine with constant water supply and is dependent on cup size, quality settings, spout, model and nominal power rating. The recommended maximum daily capacity is based on our catalogued service concept. However, these average values serve merely as a guideline. Let our trained WMF team match the ideal coffee machine design to your specific needs.

** Height including coffee bean hoppers.

*** The A-rated sound pressure level LpA (slow) and LpA (impulse) at operating personnel work stations is under 70 dB(A) in any operating mode. Above 5° dKH (carbonate hardness), a WMF water filter must be fitted.

Available with the following milk and steam systems:

	 BASIC MILK	 SMART MILK
 BASIC STEAM	✓	✓

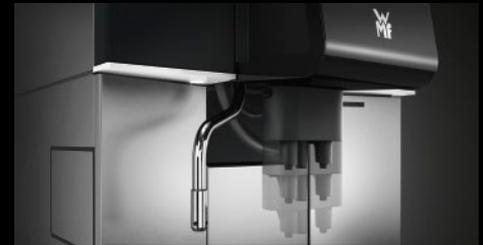

DRIP TRAY & CUP STOP

Protection against overflowing is provided by a fill level sensor, and a presence sensor locks the machine if the drip tray is missing. An adjustable cup stop ensures correct cup positioning.

UP TO 3 HOPPERS

To allow you to offer your customers an appealing choice of beverages, the WMF 1300 S comes with the option of up to two bean hoppers plus one powder hopper. [Lockable hoppers available.]

HEIGHT-ADJUSTABLE SPOUT

The beverage spout can be manually adjusted to the ideal height for the cup being used, so beverage temperature remains perfect and unsightly splashes of milk are eliminated.

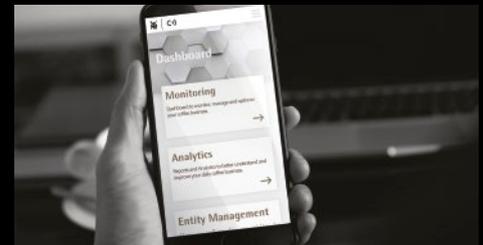

CHOC MIXER

The Choc Mixer promises easy handling and maintenance thanks to a magnetic lock that guarantees correct insertion of the mixer bowl. It is protected against damage by an integrated sensor.

MANUAL INSERT OF FURTHER COFFEE TYPE

For greater flexibility, an additional coffee type such as decaffeinated coffee can be dispensed through the manual insert, offering the benefit of even more choice for your customers.

WMF COFFEE CONNECT

Included as an option on the WMF 1300 S, WMF's innovative digital platform enables you to take advantage of digitalisation and the IoT to make your coffee business even more profitable.
