WMF Professional Coffee Machines

BLENDING QUALITY AND RELIABILITY
SINCE 1927.

WMF Group is a global market leader in fully automatic professional coffee machines. As a highly trusted brand with a long history of success, our mission is clear: to offer a seamless premium experience, by combining coffee excellence, reliable solutions and a uniquely comprehensive service.

WMF origins span from a metalware factory founded in Geislingen/Steige, Germany, in 1853, to the first large-scale production of commercial coffee machines in 1927. Today, WMF has become a global brand whose "made in Germany" seal is a synonym for legendary manufacturing excellence. WMF promise is "Designed to perform": fully automatic coffee specialties machines, filter coffee machine or automatic portafilter machines combine unparalleled working performance and outstanding reliability. Their modular design and advanced technology solutions make them fully customizable and ready to face every future trend change. Our digital solutions leverage the IoT and advanced cloud platforms. Maintenance is more efficient by monitoring supplies, operation and service data. You can create special promotions based on your customers' favourite beverages. And you can do it remotely – anytime, whenever you are. We are committed to quality with our Global Service Offering. Our technicians assist you installing your professional coffee machine, customizing it to your needs, your business' layout and your customers' tastes. Reliable original parts are quickly available, ensuring your business continuity.

FINANCING SOLUTIONS WITH FULL SERVICE PACKAGE

At WMF we lead with design innovations including financial ones, to increase your sales opportunities. We have developed financing solutions to provide you with the option to buy your professional coffee machine without facing budget restraints or using cash reserves. Just like our coffee machines, our leasing options can be tailored to your budget requirements. We offer flexible rates and payment options to suit your needs. Financing solutions ensure your business remains competitive advantage against your competitors. You can quickly upgrade your old coffee machines to the most current ones, without worrying about amortisation costs. Therefore, you can offer your customers the ultimate coffee indulgence. By choosing leasing, you can use cash reserves for other important investments. Leasing can also offer tax benefits, as the regular payments are treated as revenue expenses. Plus, if you choose a financing solution you can also include a full maintenance service package.

Innovation also means financial innovation. That's why we have developed a financing solution to meet your business needs and increase your sales opportunities.

10 REASONS TO GROW YOUR BUSINESS:

1. No more compromises because of restricted budgets

Don't limit your business opportunities. Get your ultimate coffee solution and take advantage of WMF innovations.

2. Choose a tailor-made solution

Leasing allows you to repay your investment based on your budget requirements.

3. Protect and reinvest your cash reserves

Why buy a coffee machine in a single payment and wait years to break even? Leasing allows you to spend your cash reserves on other strategic activities and focus on growing your business.

4. Stay current with the most advanced technology

Leasing allows you to easily replace your old coffee machine and let your clients enjoy the latest coffee experience.

5. Better planning for your business

Leasing offers regular, predictable and manageable payments for the lifetime of the contract, so you can easily forecast your cash-flow and make better business decisions.

6. Pay a flat fee for everything

Our financing solutions can cover the investment for your coffee machine together with all of the related services. Everything you need to boost your business within the same regular payment.

7. Easy, cost-effective upgrades

Leasing is a great way to actively manage your vending estate. It helps you to upgrade obsolescent assets to the most current solution.

8. Get faster return on investment

In a deal financed by capital, return on investment can take years to achieve. With leasing the returns are faster, and the benefits can far outweigh the payments you make.

9. Very flexible end-of-term options

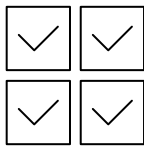

We can arrange for you to retain, augment, upgrade or return your coffee machines as you wish. Reduce maintenance costs and business downtime as a result of breakdown – whilst keeping to the same, regular payment plan.

10. Benefit from tax advantages

Your periodic payments are fully tax deductible. You can write them off as direct operating expenses: this allows you to reduce your short term taxable income.
