

BIM Model:  
QF\_WMFM\_9000\_S+.rfa

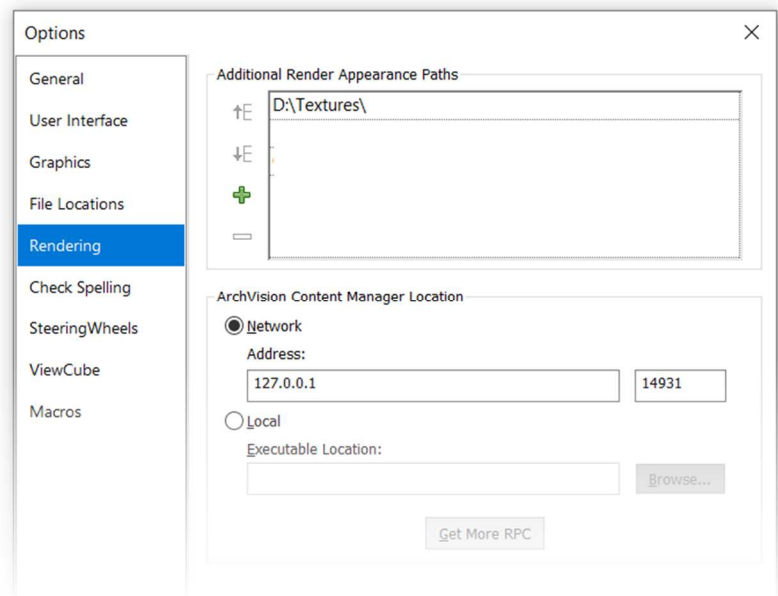

This family utilises jpg-files as material for the display area.

In order to see the materials the realistic view and renderings, copy the

In order to see the materials in realistic views and renderings, copy the jpg file from the zip file in a folder on your local drive (i.e.g. D:\Textures).

In the Revit options, under *Rendering*, add this folder as *Additional Render Appearance Path*.
